Woods Bay FAS Site Protection Decision

Montana Fish, Wildlife & Parks (FWP), Region One, has completed a draft environmental assessment (EA) for the Woods Bay Fishing Access Site (T26N, R19W, NW¼ S19, Lake County) for the purposes of improving existing roads, replacing existing boat ramp, installing riprap, and installing a floating dock. Based on the analysis in the EA, FWP finds Alternative B, to widen and gravel roads, replace concrete ramp, install riprap along shoreline, rebuild breakwater, install a gate, and install a dock (if financially feasible), to be the preferred alternative.

During the 30-day public comment period, there were two comments received, with the concerns being addressed in both the decision document and the final EA. Copies of the final EA and decision document are available at FWP headquarters, 490 N Meridian Rd., Kalispell; Montana State Library, 1515 E 6th Ave., Helena; Flathead Co Library, 247 First Ave. E, Kalispell, and 521 Electric Ave., Bigfork; and the FWP web site at fwp.state.mt.us.
